“A life that touched so many, echoes still ...”

Please join us for this special event in memory of Stacey Vorpahl, a 19-year-old Fort Atkinson girl who died in 2004 after a courageous battle with Niemann-Pick Disease Type C.

Stacey touched many people in her short life, motivating her parents to join with others to establish the National Niemann-Pick Disease Foundation, bringing families from around the world together, all suffering from this rare disorder, all seeking hope for a cure.

Please help us continue the work Stacey inspired.
