“A life that Touched so many, echoes still ...

Please join us for this special event in memory of Stacey Vorpahl, a 19-year-old Fort Atkinson girl, who died in 2004 after a courageous battle with Niemann-Pick Type C Disease.

Stacey touched many people in her short life, motivating her parents to join with others to establish the National Niemann-Pick Disease Foundation, bringing together families around the world suffering from this rare disorder, offering hope for a cure.

Please help us continue the work Stacey inspired.
